TAYLOR

POWER SYSTEMS®

MOBILE GENERATORS

Models ranging from TM20 (20 KW) through TM500 (500 KW)

*All the power you need...
 ...when you need it
 ...where you need it!*

Taylor Power Systems is the one name to rely on for emergency power when you need it. **TAYLOR**, a name synonymous with dependability, brings you a dependable line of American-made mobile generators. And each is Taylor-Made to fit YOUR needs.

All **Taylor Power Systems** Mobile Generator Sets are built with heavy-duty 4 cycle industrial diesel engines for reliability and fuel efficiency, brushless rotating field generators with “class H” insulation, heavy-duty steel trailer with integral fuel tank, and analog based control systems.

The standard analog control panel provides full instrumentation with voltmeter, frequency meter, percent of load meter, oil pressure gauge, hour meter, coolant temperature gauge, fuel level gauge, battery voltmeter and safety shutdown system. These mobile generators from 20 kw to 500 kw are powered by Perkins and Cummins mobile EPA certified engines.

STANDARD FEATURES:

- Trailer with Integral Fuel Tank
- Weather Enclosure
- Vibration Isolators
- Oil Drain Valve with extension
- Block Heater
- Flex Exhaust Connector

Our custom built trailers are specially designed and built for transporting Taylor Power Systems generator sets with maximum safety at highway speeds. All trailers come equipped with a fuel tank built into the trailer, electric brakes with safety disconnect and 7-wire connector, torsion axle(s), front tongue jack, two rear stabilizer jacks, ICC lighting, and license plate bracket. These trailers also come with a lockable storage trunk at the front of the trailer and a heavy-duty weather enclosure with hinged doors.

- Exhaust Silencer
- Analog Controller
- Full Output Circuit Breaker
- Glow-plug Cold Weather Starting Aid (TM20-TM175)
- Battery w/ Battery Rack & Cables
- PMG Exciter (not available on the TM20-TM30)
- Owners Manual

Our mobile generators feature power cable access and storage at the rear of the unit.

Simple and easy to use features make the Taylor Power Systems Mobile Generators the right choice for your needs!

OPTIONAL EQUIPMENT:

- Sound Attenuated Enclosure
- Multi-Voltage Selector Switch
- Output Power Cable
- Battery Charger
- Isochronous Governor - TM55

Note: Isochronous Governor is standard on the TM28, TM30, and TM60 through TM500 (not available on the TM20)
