# LET US HELP YOU FIND THE PARTS YOU NEED!

## FIND WHAT YOU'RE LOOKING FOR IN ONE PLACE:

We have over \$3,000,000 in parts inventories specifically for generators, transfer switches and related generator components. In addition to parts for Taylor generators, we stock parts that are common to most all makes and models of generators. These are not just maintenance parts. We stock complete control panels, circuit boards, voltage regulators and other commonly used repair parts. Taylor Power also has a dealer network available to ensure next day delivery and potentially same day delivery in emergency situations.

We carry a huge inventory of parts for the leading engine manufacturers, such as Perkins®, Isuzu®, NG Engines®, Cummins®, Mitsubishi® & GM®. Taylor Power Systems also carries: Batteries, Battery Chargers, Block Heaters, Control Panels, Voltage Regulators and accessories for many popular brands of generators.

# WE SERVICE ALL MAJOR BRANDS OF INDUSTRIAL GENERATORS

## COMMITTED TO GENERATOR SERVICE:

We stock parts specifically for generators, transfer switches and related generator components. Our technicians are factory trained on Taylor Power Generators and the latest standby power systems. In addition to parts for Taylor generators, we stock parts that are common to most all makes and models of generators. Our technicians have an inventory of common repair parts easily accessible when responding to emergency calls.

## SERVICE CONTRACTS:

Having a Service Contract with Sudden Service, Inc.® is probably the most cost effective way to keep your generator up and running. With a service contract, a service technician will be dispatched to perform scheduled maintenance, according to your generator's maintenance schedule, or to perform extended maintenance, mandated by your full service contract.

# STORM/WEATHER DAMAGE?... WE CAN HELP?

## COMMITTED TO GENERATOR REPAIR:

Taylor Sudden Service provides onsite repairs and service for all major brands of industrial & commercial generators. With regional warehouses throughout the US, we can provide parts for your existing generator. We stock parts specifically for generators, transfer switches and related generator components. Our technicians are factory trained on Taylor Power Generators and the latest standby power systems. In addition to parts for Taylor generators, we stock parts that are common to most all makes and models of generators.

## CONTACT US: 1-800-748-9980

The most common way to schedule service or repair for your generator is to contact us. With our network of factory service centers, we can connect you to the person responsible for generator service in your area. We maintain a list of participating service centers to find generator service in your area.

# AVAILABLE RENTAL GENERATORS

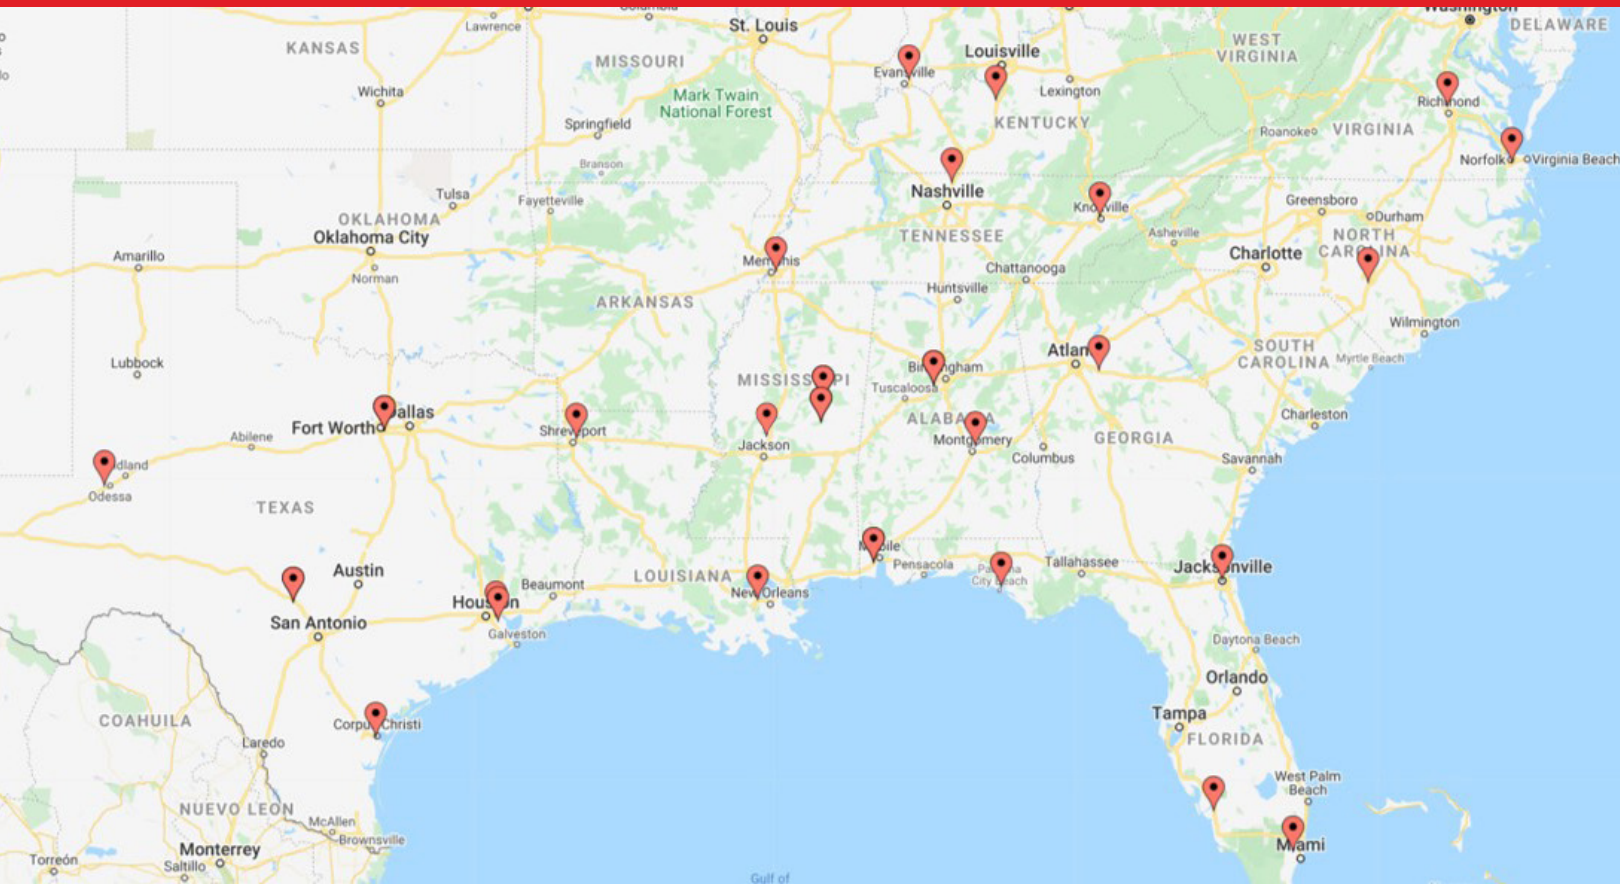

## STARTING AT 20kW AND HIGHER:

Our experienced staff can assist you with rental generator rates, availability and any other rental questions you may have.

- **Easy Mobile Delivery:** All of our rental generators are trailer mounted for ease of towing and transporting.
- **Many Different Size Units:** Starting at 20kW, we offer a variety of solutions to meet any demand you may have. Ask any of our representatives for help in sizing a rental generator to meet your specific job or application.
- **Self Contained:** Everything you need for power is onboard, built-in fuel tanks, cable hook-ups and easy to use controls.
- **Flexible Rental Rates:** We offer daily, weekly or monthly rates. Our turn key rental generator package can include the generator, cables, hauling, refueling and scheduled maintenance.
